

international LYMPHOEDEMA SYMPOSIUM

10 DECEMBER 2014

Lymphoedema is a huge lesson of humility

Lymphoedema...

From care to cure?...

*Not enough patients are well treated and the **World Health Organisation** counts over 150 million congenital cases. 17 to 46% cases are iatrogenic cases which appear after cancer treatment and we still count over 70 million filiariosis cases*

The aim of this symposium is to **try to elaborate a strategy** for the treatment of lymphoedema and to **teach new surgery and physiotherapy techniques**:

- Lymphology basics
- New techniques in diagnosing and treating
- Research improvements
- Round tables to discuss different types of lymphoedema and strategies in treatment

PROGRAMME

8:00^{am} | WHY DOES LYMPHOEDEMA APPEAR?

Chair: *Ethelka Földi*

- Physiology, physiopathology - *S. Rockson*
